

Combating Cyber Attacks

Course Description

Employees, managers and directors should all have a good understanding of the threat posed by cyber-attacks and the importance of guarding against data breaches.

This short course will explain why cyber attacks and data breaches happen and provide practical advice on how to set up effective defences.

Learning Objectives

By the end of this course, you will:

- Understand the ways in which cyber attacks happen.
- Have learned useful tips and ideas to help you deal with cyber attacks effectively.

Advantages

Online training is flexible, efficient and cost effective meaning the candidate can progress through the modules at their own pace and in their own time, so they can fit the training around their work and personal life.

Modules

Course	Module Number	Module Name	Pass % Required
Combating Cyber Attacks	1	Combating Cyber Attacks	70

Recommended System Requirements

- Browser: Up to date web browser
- Video: Up to date video drivers
- Memory: 1Gb+ RAM
- Download Speed: Broadband (3Mb+)

Duration: 10 minutes (*Note: This is based on the amount of video content shown and is rounded off. It does not account in any way for loading time or thinking time on the questions).*
