

Cyber Security- An Overview

Course Description

This micro course will give you an overview of Cyber Security in a bitesize format that should take you no longer than 10 to 15 minutes to complete. The purpose of this course is to introduce you to key concepts relating to Cyber security. This includes an introduction to cyber threat actors, and an overview of reasons they might target you as an individual depending on your role or the sector you work in.

Learning Objectives

By the end of this course, you will:

- Have a basic understanding of some of the key concepts relating to cyber security.

Target Audience

The course is aimed at employees at all levels of an organisation as it provides an overview of some of the most common cyber security threats encountered in business.

Advantages

Online training is flexible, efficient and cost effective meaning the candidate can progress through the modules at their own pace and in their own time, so they can fit the training around their work and personal life.

Modules

Course	Module Number	Module Name	Pass % Required
Cyber Security- An Overview	1	Cyber Security- An Overview	70

Recommended System Requirements

- Browser: Up to date web browser
- Video: Up to date video drivers
