

Key Aspects of AI

Course Description

This micro course explores some of the key areas which form the foundation on which AI was built. The 5 aspects it looks at are Machine Learning, Neural Networks, Natural Language processing (NLP), Algorithms and Data.

Learning Objectives

By the end of this course you will:

- Understand what the 5 key aspects of AI are and how they work.

Target Audience

This course is aimed at beginners and professionals from all industries who are curious about AI.

Advantages

Online training is flexible, efficient and cost-effective meaning the candidate can progress through the modules at their own pace and in their own time to fit the training in around their work and personal life.

Modules

Course	Module Number	Module Name	Pass % Required
Key Aspects of AI	1	Key Aspects of AI	70

Recommended System Requirements

- Browser: Up to date web browser
- Video: Up to date video drivers
- Memory: 1Gb+ RAM
- Download Speed: Broadband (3Mb+)

Duration: 10 minutes (*Note: This is based on the amount of video content shown and is rounded off. It does not account in any way for loading time or thinking time on the questions*).
