

Lead Safety

Course Description

It starts by explaining what lead is, where it is found and what products it is used in. It then explores how workers are exposed to lead and how it can affect their health.

This is followed by a look at OSHA and other regulatory agencies that regulate lead and lead exposure.

Next, the course explores what workers can do to stay safe.

Finally, you finish by learning how to develop and maintain a written program along with the requirements for warning signs, labels, safety data sheets, employee information and training.

Learning Objectives

By the end of this course you will :

- Understand what lead is and which environments you tend to find it in
- Have an understanding of the OSHA regulations, surrounding lead and lead exposure
- Be aware of the health hazards which can happen when a worker comes into contact with lead without the recommended PPE or protective measures
- Understand the importance of training, developing and maintaining a written compliance programme to ensure worker safety at all times

Advantages

Online training is flexible, efficient and cost effective meaning the candidate can progress through the modules at their own pace and in their own time, so they can fit the training around their work and personal life.

Target Audience

This course is aimed at anyone, employees and employers, who work with lead containing materials or may come into contact with lead whilst undertaking their day to day duties.

Modules

Course	Module Number	Module Name	Pass % Required
Lead Safety	1	Introduction	70
Lead Safety	2	What is lead and where is it found in the workplace?	70
Lead Safety	3	Government Regulations	70
Lead Safety	4	Health Hazards	70
Lead Safety	5	Protective Measures	70
Lead Safety	6	Training, Written Program and Other Requirements	70

Recommended System Requirements

- Browser: Up to date web browser
- Video: Up to date video drivers
- Memory: 1Gb+ RAM
- Download Speed: Broadband (3Mb+)

Duration: 30 minutes (*Note: This is based on the amount of video content shown and is rounded off. It does not account in any way for loading time or thinking time on the questions).*
