

Why We Need To Control Chemicals

Course Description

This micro course shows how a HazCom programme can protect the health and safety of workers using chemicals in US industry. It also discusses the function of the Globally Harmonized System of Classification and Labeling of Chemicals (GHS) and the benefits of this.

Learning Objectives

By the end of this course, you will:

- understand the purpose of controlling chemicals
- be able to identify the function and relationship of the Globally Harmonized System of Classification and Labeling of Chemicals (GHS) to HazCom.

Target Audience

This course is aimed at workers that need to use chemicals and other hazardous products as part of their role.

Advantages

Online training is flexible, efficient and cost effective meaning the candidate can progress through the modules at their own pace and in their own time, so they can fit the training around their work and personal life.

Modules

Course	Module Number	Module Name	Pass % Required
Why We Need To Control Chemicals	1	Why We Need To Control Chemicals	70

Recommended System Requirements

- Browser: Up to date web browser
- Video: Up to date video drivers
- Memory: 1Gb+ RAM
- Download Speed: Broadband (3Mb+)

Duration: 10 minutes (*Note: This is based on the amount of video content shown and is rounded off. It does not account in any way for loading time or thinking time on the questions*).
